

St Cecilia's Catholic Primary School

5 February 2020

Dear Parents/Guardians

TERM ONE 2020 STEM PROGRAMME

Our afterschool STEM programmes will run from Week 2 till Week 9 of Term 1, Payment will be via Flexischools and will ensure your child's position. NO REPLY SLIP IS REQUIRED. Please select the 'Afterschool STEM' option on Flexischools. We will advise via sms once this is open for payment.

Scratch Coding

Open to Years 1 – 6, on Friday's, 2.30pm to 3.30pm

We will continue our after-school computer programming course that has exposed students to the areas of computational thinking, problem solving, programming concepts and digital citizenship. We will continue using the courses offered by Code.org which allow students to work at their own pace.

Application process – Complete your order on Flexischools to participate in this group.

Cost – The cost of these courses is \$25 per student for the whole term. This will cover the cost of additional resources as well as a small snack after school each week.

Time – This year we will begin our course at 2.35 in the afternoon, directly after school finishes. Participants will arrive at Mrs Wellbeloved's classroom, leave their school bag, receive their snack and begin their Scratch coding immediately. Sessions will last 50 minutes until completion at 3.30pm.

Yours sincerely

Mrs Claire Wellbeloved
Science and Technology Teacher
