

Year 2 Homework Term 4 Week 6

Due: Tuesday, 20th November

Until the end of this year, each week I have my basic daily skills to do at home.
I will ask a parent/carer to tick these when I can show I have done them.

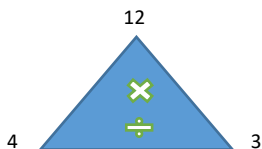

Skill	Tick when done			
Week 7 spelling words x 4 practices				
Read aloud to a parent/carer 15 minutes each day				
Make multiplication/division fact family triangles for the following numbers: 1) 4, 4, 16 3) 5, 10, 2 2) 2, 2, 4 4) 7, 10, 70				
Practice my chosen times table 5 times. See Ms B whenever I am ready to be tested and think I can recite my times tables for that number within 25 seconds. I will receive a sticker for my chart.				
Practise my sight words aloud with a parent/carer OR: If I have finished my sight words, put our new word ESTIMATE into a sentence.				

Spelling words – Practise here!

Practice 1	Practice 2	Practice 3	Practice 4

- Here is an example of a multiplication and division fact family triangle (as we have done in class).

4, 3, 12

$3 \times 4 = 12$; $4 \times 3 = 12$ $12 \div 3 = 4$ $12 \div 4 = 3$
