

## St Cecilia's Catholic Primary School

21 August 2020

Dear Parents and Caregivers,

St Cecilia's has been invited to be a part of the first ever **Science Spectacular** to be held on the afternoon of Friday 11 September (venue TBC).

The plan is for interested students in Years 3-6 across Hedland to enter a presentation of their own making for display at the event.

Students are to investigate and research a topic on the 2020 Science Week theme of Deep Blue. The research, investigations, and presentations need to be completed at home, recognising that students will require assistance as necessary, and be brought to the presentation afternoon.

There are two main categories for students from Saints to participate in:

**Research:** Choose a topic, research the topic, present a large, visual report on your findings.

**Model:** Choose a topic, research a topic. Create a model/diorama/poster to demonstrate your understanding of the topic.

To assist families at St Cecilia's to prepare for their presentations, I will be offering afternoon sessions to the students to help them prepare. The idea is for me to support your child's research, project plan and development as well as to keep them up to pace with the deadline. All resources in the Science room will be available for use, however **completion of the project is your child's responsibility and they must be prepared to work at home.**

All projects and participants must be present for the entire event on Friday 11 September from 3-6pm. There is no need to present projects should students not wish to; however, each entrant must be present for judging to take place.

Location:	TBC
Date:	Friday 11 September 2020
Set Up:	14:45pm
Community Gallery walk:	3.00pm – 6.00pm
Pack up:	6.00 pm to 6.15pm

Display space:	½ table per presentation (approximately 1.2m by 0.6m) Small groups of up to 3 students may work on a single project (only 1 parent from the group needs to be available at the spectacular to supervise the group)
Extra:	Dress like a scientist to enjoy the afternoon with a fun twist

If you are entering the 2020 science Spectacular please complete the participation confirmation form below and return to Mrs Wellbeloved by no later than Wednesday 26 August.
