

St Cecilia's Catholic Primary School

25 May 2023

Dear Parents and Carers

On Thursday 08 June we have an exciting incursion visiting our school – Scitech is once again visiting the Pilbara and will be bringing the wonders of Science to our students through engaging, interactive shows with hands-on exhibits, workshops and VR experiences.

The Kindy to Year Three students will be attending the Junior Science, *Mix and Make* show and workshop to explore what happens when common ingredients found at home get mixed together through following recipes and making up some of our own. We apologise in advance for the experiments and mess that students may want to recreate at home...and we will totally blame Scitech! (Dietary Information: Students will not be tasting any ingredients. Scitech use gluten flour, they do not use eggs or egg products and they do not use nuts; however, the cocoa powder is produced in a factory that also makes products with nuts.)

The Year Four, Five and Six students will see the world in a whole new light through chemistry in the *Element of Surprise* show and workshop, mixing explanation and interactive demonstrations to showcase different scientific processes and discovering how relevant science is to everyday life.

There is a cost of \$6.50 per student for the incursion. For your child to attend the incursion, please make payment of \$6.50 on the Flexischool website by 3:00pm Tuesday 06 June. This payment, when made, gives permission for your child to attend. Students not attending will be supervised in another class.

Yours sincerely

Mrs Mandy Sheen
Principal
